

Our members can access over 40 Admitted P&C carriers directly. One of our biggest advantages is that most of our carriers can be accessed directly through our DAIS shared codes with no carrier appointment or production commitments. When a member has built enough premium to qualify for a sub-code appointment we will work with the carrier to obtain one.

DAIS is nationally appointed with almost all of our carriers. Meaning that if the carrier does business in a state, DAIS members can place business in that state with the proper resident or nonresident license.

Beyond the DAIS direct access carriers, members enjoy the ability to place business through Amwins Admitted Placement Services with additional carriers on a wholesale basis.

Please check the list below for carrier and profit sharing availability. Please contact our DAIS team with any questions.
